2024 Editors' awards for excellence in reviewing

The Editors and Publisher of European Journal of Operational Research (EJOR) are keenly aware that the success of the journal is due in very large part to the many members of the scholarly community who act as reviewers for the Journal. We are extremely grateful and appreciative of their hard work and contribution to the Journal. As such, we wish to recognise reviewers who did an outstanding job by submitting timely, unbiased and thoughtful reviews. This year we would like to award the following reviewers for their service to EJOR during 2023:
