

Institute of Decision Science, Fuzhou University (China); University of Jaén (Spain)

Tel: +86 18065141136; +34 685258461

Education

- September 2014 to Present, PhD student, major in of Management System Engineering, School of Economics and Management, Fuzhou University/
- September 2011 to March 2014, Received Master degree. Major in Information Management and Information System, School of Economics and Management, Fuzhou University.
- September 2007 to July 2011, Received Bachelor degree. Major in Information Management and Information System, School of Information Engineering, XianYang Normal University.

Description

Liang Wang was born in 1987. He is a visiting scholar in the Department of Computer Science, University of Jaén from March 2016 to March 2017. He is Ph.D student in the School of Economics and Management of Fuzhou University. He received the master degree of management at Fuzhou University in 2014. His current research interests are emergency decision making and decision theories and methodologies.

Publications

Projects

Participated in the following projects as a PhD student

- [1] The National Natural Science Foundation of China under the Grant No. 70925004. “Decision making theory and methods”.
- [2] The National Natural Science Foundation of China under the Grant No. 71371053. “Research on the theory and methodology of combining decision making units based on performance assessment”.
- [3] The Research Fund for the Doctoral Program of Higher Education of China under the Grant No. 20123514110012. “Research on the cross efficiency of data envelopment analysis under uncertainty”.
- [4] The Humanities and Social Science Foundation of Chinese Ministry of Education under the Grant No. 14YJC630056. “Research on the theory and application of the DEA-Malmquist index under uncertainty”.
- [5] The Natural Science Foundation of Fujian Province under the Grant No. 2014J01264. “Research on random data envelopment analysis under the time series environment”.
